Records indicate that you submitted a claim for compensation based upon a grievance filed by AFGE Local 1945 alleging that Anniston Army Depot, Anniston, Alabama, required Directorate of Productions employees to perform higher graded duties without compensating them at a higher rate of pay. An unfair labor practice charge has been filed alleging that Local 1945 gave preferential treatment to Union members in the settlement of that grievance. Local 1945 is voluntarily issuing you the enclosed check as resolution of this charge. No official finding has been made by the Federal Labor Relations Authority or any other adjudicative agency. By compensating you and other employees, Local 1945 is not admitting to any violation of federal law or improprieties in the manner in which it represents bargaining unit employees. Local 1945 recognizes its obligation to represent the interests of the entire bargaining unit at Anniston Army Depot.

The enclosed check is valid for sixty (60) days from the date of issuance. After that, the check is void and will not be honored. This represents the full and final settlement of all claims relating to any unfair labor practice charges filed or that could be filed arising out of this grievance settlement agreement.
